

Join the Celebration!

**CLEAN WATER**

for ALL of God's children!

**Living  
Waters** For The  
**World**

School children in Xkeulil, Yucatan, Mexico welcome the Living Waters for the World survey team with happy smiles and music!

A mission project of the Synod of Living Waters, PC(USA)

*“for those who are thirsty...”*

*—Matthew 25:35*

# the Mission Project of the Synod of Living Waters

Believing Jesus Christ to be living water for our bodies and souls, Presbyterians in Mississippi, Alabama, Kentucky, and Tennessee (and beyond) are helping people of the world who are striving to obtain pure drinking water.

We believe that our faith and vision call us to:

-  Provide affordable water purification systems for people in all parts of the world. As of Fall 2004, we have installed 24 purifiers in Mexico, Guatemala, Brazil, Honduras, Haiti and Belize with many more in process.
-  Partner with churches and community organizations to be responsible for the installation, operation and maintenance of these systems. Partnership lies at the heart of our mission.
-  Assist in development of health and hygiene education that stimulates the demand for and the understanding of the benefits of purified water. As our partner Maria Medina, RN at Puentes de Cristo says, “Clean water is medicine!”

## Clean Water U

The knowledge and experience gained from a decade of work in the field is now being shared with Presbyterians and our Ecumenical Partners in mission in an exciting, highly effective way.

Clean Water U, Living Waters for the World's permanent training facility, began operation in spring 2004. Church mission groups who participate in the four-day programs are fully equipped to bring pure water to their mission partners in need. This has resulted in a significant increase in the number of systems installed each year.

Our work is ongoing and expanding. If you and/or your congregation would like to partner with us, there are a variety of ways in which you may help: **pray** for this work and for those condemned to drink contaminated water, **join us** in our work by forming a clean water team and **provide** monetary support.

*Delivering the water of life.*
